Pablo Javier Sandoval

Systems Engineering student | Entry-level IT

Limerick, Ireland · psandoval@miumg.edu.gt · github.com/Paxmer

PROFILE

Final-year Systems Engineering student with hands-on experience building and deploying full-stack projects (PHP, MySQL, JavaScript, 145 automated tests) and a solid base in networking (Cisco CCNA). Founder of a business with 20+ monthly sales and a team of two. Seeking an entry-level IT role where I can keep growing.

TECHNICAL SKILLS

Programming	JavaScript, PHP, Python (learning), Java, C, C++, C#
Web & databases	HTML5, CSS3, SQL, MySQL (stored procedures), SQL Server, Apache
Networks & systems	Cisco Packet Tracer, Windows Server, operating systems
Security & testing	bcrypt, CSRF protection, role-based access control, automated testing
Tools	Git and GitHub, Microsoft Excel, Claude Code, Codex, n8n, Supabase, Vercel

PROJECTS

Banco PJS – Online banking system PHP, MySQL, HTML5, CSS3, Apache — Code · Live demo

- Built a full-stack banking application with three user roles (customer, cashier, administrator) and transactional money transfers using MySQL stored procedures.
- Added bcrypt password hashing, CSRF protection and role-based access; wrote 145 automated tests; deployed online.

Freelance web development

- Built and published demo websites on Cloudflare Workers; currently building a website for Ambika Guatemala.

EXPERIENCE

Founder & Sales Manager, American Visa Experts · Remote, Latin America — September 2022 – Present

- Founded the business and manage all operations and commercial strategy; lead a team of 2 employees.
- Consistently achieve 20+ successful monthly sales of immigration services (consulting, appointments, documentation).
- Built custom Excel forms to collect client data for US visa applications; extended to Canadian forms (IMM 5257, IMM 5645).

Childcare Cook, Northside Family Resource Centre · Limerick, Ireland — November 2025 – Present

- Prepare meals in a childcare setting following food safety standards; manage stock and supply records.

Crew Member, McDonald's Jetland · Limerick, Ireland — Sep 2024 – Oct 2025

- High-volume customer service role: teamwork, communication and time management.

EDUCATION

Systems Engineering, Mariano Gálvez University · Guatemala (online) — Feb 2021 – late 2027

- Final stage of a 10-semester engineering degree. **Key coursework:** programming, databases, computer networks, operating systems, systems analysis, software engineering, web development and digital electronics.
- **Web Development:** Banco PJS, full-stack banking system (see Projects).
- **Computer Networks:** "The Journey of a Packet", a network simulation in Cisco Packet Tracer with a companion website.
- **Systems Analysis II:** appointment and service management system for a barbershop (requirements, design and final report).
- **Final integrative project:** edge-computing cluster for local AI inference (predictive maintenance), team of four.

Certifications · Cisco Networking Academy, Udemy

- Cisco CCNA modules 1–3 (Introduction to Networks; Switching, Routing and Wireless Essentials; Enterprise Networking, Security and Automation); Advanced Excel (Udemy, 2026).

Self-directed learning · Cloud and programming

- Preparing for the AWS Certified AI Practitioner certification; learning Python.

LANGUAGES

Spanish: native · **English:** B2 · **Portuguese:** beginner
